

A Sirius Company

Sirius Awe LLC

Our Goal and Mission:

Build Amazing Technology

What We Do:

Build Amazing Technology

How We Do it:

Through Our Unique Problem-Solving
Techniques and Capabilities

Problems we aim to solve

- wealth inequality
- homelessness
- technological incompetency
- hyper inflation

How We Can Do it:

by the complete implementation of our new and
unique open source algorithm code-named
Utopyism

\$15,000 allocated to complete the
development utopyism on our website

asirius.co

Our first product

people - a social app

available on
the IOS app
store

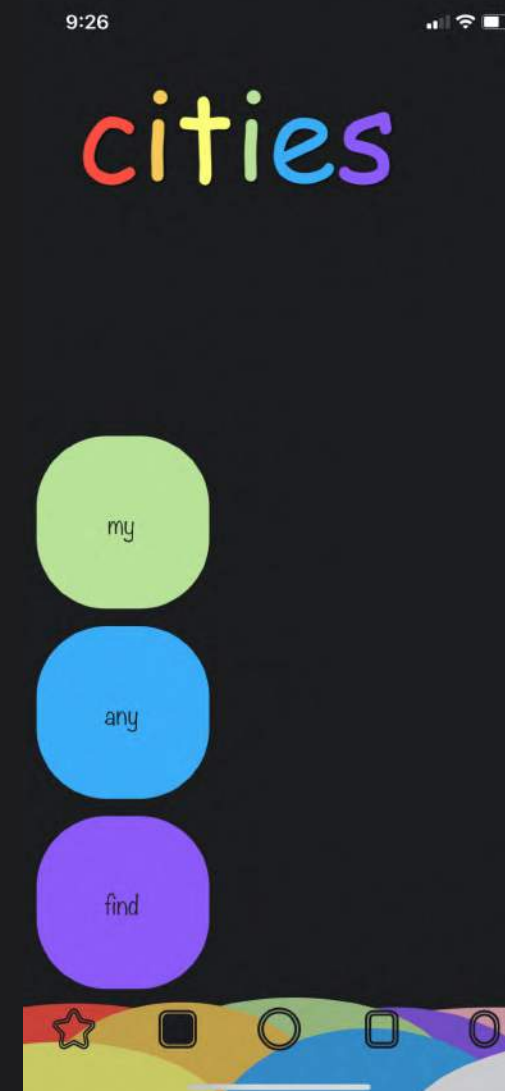

What is people?

people is a tool for people to
find local live events hosted by
people and businesses

How it Works:

using location based
technologies people or
businesses are able to post city
specific live events on location.

events can range from public
sporting get-togethers to
privately owned restaurant
nightly live special events

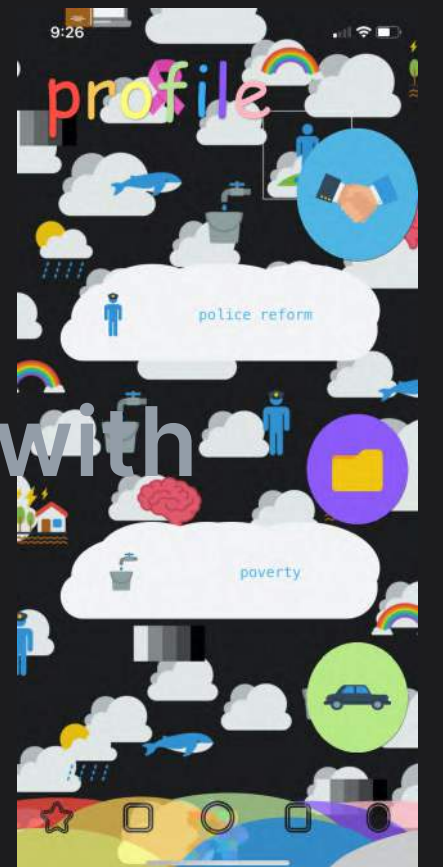

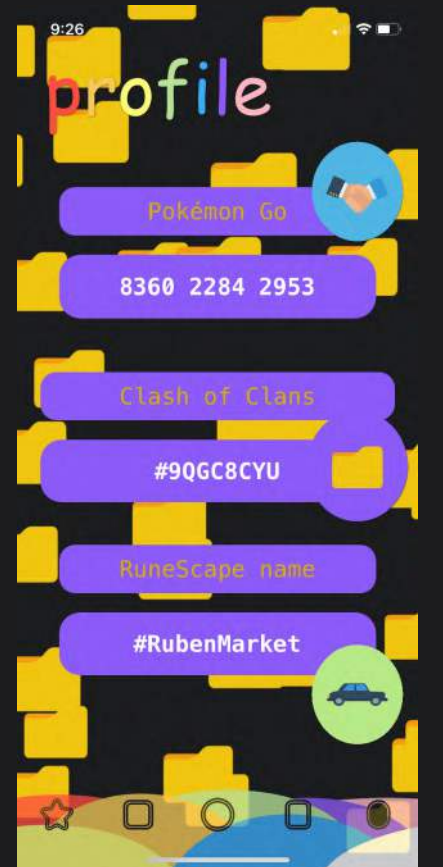

What makes peeples great?

Our app strives to bring people together, really. We take many steps to decrease user app retention so that people can make memories with others.

How we make money

In peeples profiles are made up of three entities called 'peeps'

for \$9.99/month users gain access to every 'peep' we have along with any additional 'peep' we develop. -status symbols and FOMO

A Sirius Company

Sirius Awe LLC

Our Short Term Goals:

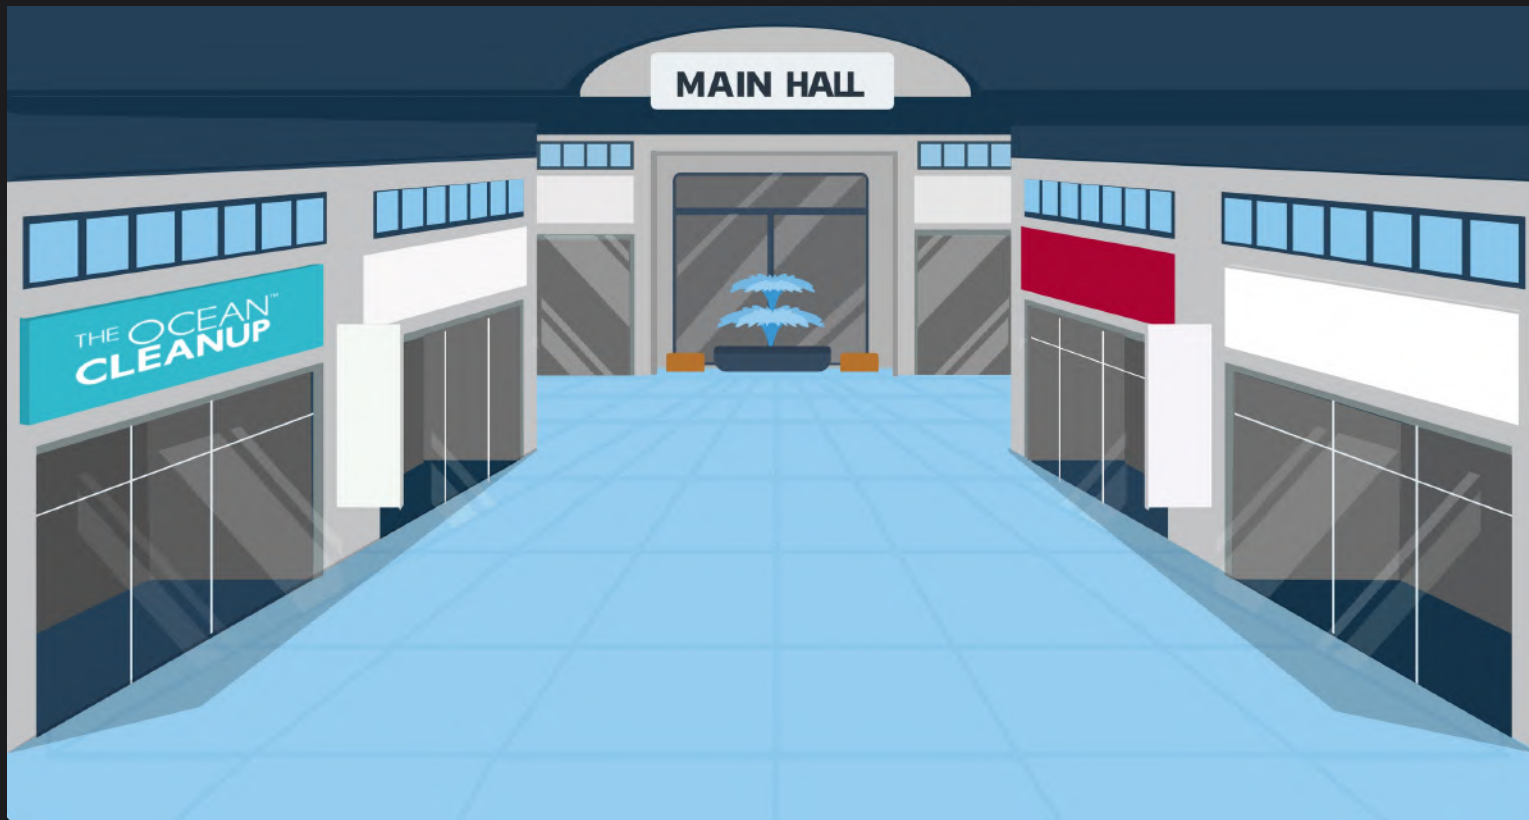

- Develop a mobile/desktop operating system utilizing many important and prominent technologies
- Partner with a hardware company to excessively distribute our mobile OS code-named Daare Dashboard
- Make an exit on our 'peeples' app through acquisition

Our Long Term Goals:

- Classified technology
- Peace on Earth
- Space Travel
- IPO

How do we cover low initial SAAS margins?

Our e-commerce web platform internetmall.earth

- B2B
- Online shopping destination
- High margins
- Great scalability
- Asset

Long Term:
separate company or acquisition

profits not subject to Utopyism

Competitors

FaceBook

Apple

Google

Amazon

Adobe

maybe Oracle

possibly the NSA
